

Landscape Bark

A Division of Carpinito Brothers Inc.

2351 LINCOLN AVE TACOMA, WA 98421 • 253-627-3121

FINE BARK | MEDIUM BARK | COARSE BARK

Product Information

MEDIUM BARK - COARSE BARK

<p>Beauty Bark:</p> <p>Our bark is composed of a Hemlock/ Fir mix. We recommend applying 3"- 4" of bark every 2-3 years for optimal results. Our Bark is excellent for; landscaping, mulching, retarding weed growth, moisture retention and overall beautification.</p>
<p>Fine:</p> <p>Our fine bark is screened at 3/4" minus. Fine bark contains small pieces and is slightly darker than the medium bark. Fine bark makes a smoother surface resulting in a more refined appearance.</p>
<p>Medium:</p> <p>This is the most popular and commonly used bark and is approximately 1 1/2" minus in size.</p>
<p>Coarse:</p> <p>Coarse Bark is a screened material consisting of mostly longer & bigger pieces with hardly any fines. It will break down more slowly than other bark. Coarse bark is great for pathways and for applying on banks due to its durability. Coarse bark is not considered a nugget bark.</p>

Yardage	White Zone	Blue Zone	Brown Zone
10-14yds	\$28.95	\$33.95	N/A
15-24yds	\$25.95	\$29.95	N/A
25-34yds	\$23.95	\$25.95	\$27.95
35-40yds	\$21.95	\$23.95	\$25.95

FINE BARK

Yardage	White Zone	Blue Zone	Brown Zone
10-14yds	\$32.95	\$37.95	N/A
15-24yds	\$29.95	\$33.95	N/A
25-34yds	\$27.95	\$29.95	\$31.95
35-40yds	\$25.95	\$27.95	\$29.95

Material Calculator

How much material do I need?

- Figure your total square footage (length x width)
- Use formula below to determine the number of cubic yards needed:
 For a 3-inch depth, divide total square footage by 108
 For a 4-inch depth, divide total square footage by 81
 For a 6-inch depth, divide total square footage by 54
 For a 1-foot depth, divide total square footage by 27

***Above calculations are not factored for compaction**
